

Body Work

Morgan Page

Body work
You do your body work
Body work
You do your body work
I still wanna see you tonight
Will you be around?
I still wanna get you alone
Will you be around
Be around
Can I take all the steps I'm planning tonight
Without risking it all
Can I make all the moves I'm making tonight

Without hurting you back
You do your body work
You do your body work
You do your body work
I won't give you what's right
You still come around
I won't put up a fight
You still come around
Come around
Come around
Can I take all the steps I'm planning tonight
Without risking it all
Can I make all the moves I'm making tonight
Without hurting you back
