

Blaze

Colbie Caillat

We're boarding the night train
We board the sun light
We want moon raising our trade
We want silver and fire
Cause every day that we spend overthinking
Makes me wanna spend the night overdrinking
If these things are loosing
Then you're lost and gone wild

If the cops are all coming
We stay and not running
We'll be reaching like crazy
Fly with me baby
Like we only got tonight
It's gonna be the best night of our lives
If we're gonna go down in flames
Let's go out in blaze
Go out in blaze
Go out in blaze

We're dancing on tables
We're kicking off shoes
We're sick of the same 'ol
So we're singing like fools
Got the games and Jameson in the blue dream
Flipping cups, it's enough to this evening
You were breaking those tables
And we're bending those rules

If the cops are all coming
We stay and not running
We'll be reaching like crazy
Fly with me baby
Like we only got tonight
It's gonna be the best night of our lives
If we're gonna go down in flames
Let's go out in blaze
Go out in blaze

Go out in blaze

Every night, every day
We light up the sky
Up in a blaze
Shine like the stars
Burn like a flame
No we're never going out
Every night, every day
We light up the sky
Up in a blaze
Shine like the stars
Burn like a flame
No we're never going out

If the cops are all coming
We stay and not running
We'll be reaching like crazy
Fly with me baby
Like we only got tonight
It's gonna be the best night of our lives
If we're gonna go down in flames
Let's go out in blaze
Go out in blaze
Go out in blaze
