guys like you are always so entertaining
"i can't help myself ", she said
"i'm crazy for that smile"
then she'll drag me down
with her friends to their demonstrations
well i have to share my girl with her cult lifedon't call me apethetic
"cause i don't believe the hype
'cause it's people who believe in things
that are always taking livesand it's ok that you want to take some
time away from me
it's all about karma, alien invasions,
chakras and crystals and reincarnation
just let me leave the left behindguys like you are always so entertaining
"we're just good friends" she says
"he's so deep and involved"
but me? well she drags me down,
never ever lets me out
well i've seen all i care to hear
of what with me is wrongman your soul is rotten,
but your teeth are pearly white
everything that comes from you is a fake
or a lieand it's ok that you want to take some
time away from me
it's all about karma, alien invasions,
chakras and crystals and reincarnation
just let me leave the left behind
let's goand it's ok that you want to take some
time away from me
it's all about karma, alien invasions,
chakras and crystals and reincarnation
just let me leave the left behind
left behind..cha cha cha
