

Invented Memory

Minus the Bear

Do you remember when we were young

Yesterday [x2]

Time is a song in memory

That is to say [x2]

Nothing's really going on

It's just movement in space

Reactions from one to another

In faded memory(Chorus)

Throw all the clocks out

Tell time by touch

Feel if fall through your fingers as it rains down on usDo you remember we fought against love

In defeat, you waved a flag

Surrender to sweet uncertainty

Reactions from you to me

Invented memory(Chorus)Do you remember when we were young

Yesterday [x2](Chorus x2)
