

# All That I Know

## Collective Soul

In these lazy days  
I barely see myself through  
I lay here comfortable  
My thoughts wrapped around youI've got a lot on my mind  
It's always you every timeYou're all that I know  
When the sun goes down  
You're all that I know  
When the sun comes risingLike that devil in me  
And when tomorrow wakes  
It's sure to show  
You're all that I knowAnd these quiet nights  
They nurture me to a [Incomprehensible]  
The only strength I find  
Is when I'm wanting you moreI've had a lot on my mind  
It still wants you every timeYou're all that I know  
When the sun goes down  
You're all that I know  
When the sun comes risingLike that devil in me  
And when tomorrow wakes  
It's sure to showYou're all that I know  
When the sun goes down  
You're all that I know  
When the sun comes risingLike that devil in me  
And when tomorrow wakes  
It's sure to showYou're all that I know  
When the sun goes down  
You're all that I know  
When the sun comes risingLike that devil in me  
And when tomorrow wakes  
It's sure to show  
You're all that I know
