

# Fistful of Fuck You

## Faderhead

This is a celebration of ourselves  
This is our own creation, belongs to no one else  
This is not for the others cause you can not pretend  
Discover what you're made of  
Annihilate

With a fistful of "Fuck You"  
This is an exclamation of my will  
A strong anticipation - and it will give you chills  
This is another mindfuck - and you can not fight back  
Discover what you're made of  
Annihilate

With a fistful of "Fuck You"

And I roll along my way  
With a fistful of "Fuck You"  
And I tell you you can't stay  
With a fistful of "Fuck You"  
I keep fighting everyday  
With a fistful of "Fuck You"  
The game of life is played  
With a fistful of "Fuck You"
