

# What About the Love (feat. Mia Martina)

Massari

What about what what what what about  
What about what what what what about  
What about what what what what about  
What about the love? I've been livin' a lie  
    Tryn'a deny all of this love  
    I've been feeling inside  
    My girl I shoulda been yours  
        I couldn't let go  
        I was alone  
Out here in the cold I'm losin' faith in everyday  
    I still call out your name  
    Since you just went away  
    I wish I found a way to go  
    Back where we used to be at  
    Ohh we used to be in love, Hey now  
    Tell me how to stop this pain now  
    Show me how to break this wall down  
    Baby, won't you tell me  
        What about the love?  
        When it rains down  
    Tell me how to stop this pain now  
    Show me how to break this wall down  
        Won't you tell me  
What about the love? What about what what what what about  
    What about what what what what about  
    What about what what what what about  
        What about the love?  
    What about what what what what about  
    What about what what what what about  
    What about what what what what about  
What about the love? I, I know it ain't right  
    I wish I could hide  
    All of this pain  
    That you see through my eyes  
        I'm hurt  
    Remember the times  
    We could just fly  
    You're all mine  
We're alone in the sky I'm losin' faith in everyday

I still call out your name  
Since you just went away  
I wish I found a way to go  
Back where we used to be at  
Ohh we used to be in loveHey now  
Tell me how to stop this pain now  
Show me how to break this wall down  
Baby, won't you tell me  
What about the love ?  
When it rains down  
Tell me how to stop this pain now  
Show me how to break this wall down  
Won't you tell me  
What about the love?What about what what what what about  
What about what what what what about  
What about what what what what about  
What about the love?  
What about what what what what about  
What about what what what what about  
What about what what what what about  
What about the love?Ohh  
You bring me to my knees  
I used to be afraid  
But lately I ain't feeling the same  
I just can't take back the days  
I guess that hearts can change  
You got me trippin'  
Fallin' in and out of loveHey now  
Tell me how to stop this pain now  
Show me how to break this wall down  
Baby, won't you tell me  
What about the love?  
When it rains down  
Tell me how to stop this pain now  
Show me how to break this wall down  
Won't you tell me  
What about the love?What about?
