

# Medicated

## Wiz Khalifa

[Intro] You be anything you want

Uhh

Just keep going, going, gone, gone, gone

Uhh

It don't stop here nigga

Yeaah

Uhh

[Verse 1: Wiz Khalifa] Back when I was young I had dreams of getting richer

Then my homie Breeze set me down schooled me to the picture

I was with some wild niggas put me on the game

Told me if you tryin' to make your move you gotta know your lane homie

All you got your name and your words will never break

For this life you pay a price you get a chance you gotta take it

Cause most niggas never make it they stranded where I'm from

Ain't no conversation all they understand is get a gun

I was riding in my Bona Ville hoping I could make it

Out selling peas and smoking weed avoiding police right up the street

Way back in the day before I had all of this paper

Before I had all of these diamonds , before I had all of these haters

[Bridge: Wiz Khalifa] Now I remember when , I seen it and to me it was stuntin'

I remember when , I bought it I ain't needed or nothing

Always in a different state so now they label me a goner

I ain't come up out of nowhere I'm from straight up off the corner

Now everywhere we go, they probably know my name cause I been there

Now everywhere we go, they said how much I spend when I'm in there

And I'm throwing up my money for the ones who never made it

Say I fucked the ones who hate it rolling up and celebrate

[Hook: Wiz Khalifa] Now let's get medicated

Man , let's get medicated

Let's get medicated

Man I'm hella faded

Man , let's get medicated

Let's get medicated

Let's get medicated

Man I'm hella faded

I'm hella faded

[Verse 2: Juicy J] Roll that weed up and smoke it

Take your bitch home and poke it

Juicy begin so faded

Thank God I got a chauffeur  
On that good cali bud  
Pulling hoes bad as fuck  
Just like a youngling my nigga  
Juicy do all them drugs  
Niggas smoking that average weed  
I be on that light green  
Pop molly in the after hours  
A member of no sleep team  
Get a whole pound smoke it by myself  
Or maybe after Olympics with my homie Michael Phelps  
[Verse 3: Chevy Woods] You know I'm fresh up out that corner, pussy marijuana

They copy us, they clone us  
Yeah we so fly we on us  
Got acting like they been before  
But they ain't never been at all  
8 balls I was in no hole  
Ain't have time to fuck with y'all  
Champagne when we celebrate  
Keen sense so I smell the hate  
Middle finger we getting paid  
It cost much but don't press that eight  
That dotted line it ain't like that day  
Comic book let em ill it straight  
Like power bang when they lift that cane  
My cousin died wish I can get that day  
Back like it's a vertebre  
Bring that nigga on front street  
Talk about and never be about it  
They don't wanna beef cause that's lunch me  
So anything you need you know that's on me  
And that's OG, I swear homie

[Hook: Wiz Khalifa] Now let's get medicated

Man , let's get medicated  
Let's get medicated  
Man I'm hella faded  
Man , let's get medicated  
Let's get medicated  
Let's get medicated  
Man I'm hella faded  
I'm hella faded

[Verse 4: Wiz Khalifa] Riding down the street the way I'm grinding is unique  
My city holding on to me so niggers holding on their heat  
Throwing up their side rolling up that leaf

Ondoes get high all we want is peace  
Always on the grind that's every day so police looking  
I'm just rapping killing beats tryin' to stay away from booking  
Yeah my nigga dirty crooked I just had to make it on  
And let me hit the studio to show they happy to be home  
[Bridge: Wiz Khalifa]Now I remember when , I seen it and to me it was stuntin'  
I remember when , I bought it I ain't needed or nothing  
Always in a different state so now they label me a goner  
I ain't come up out of nowhere I'm from straight up off the corner  
Now everywhere we go, they probably know my name cause I been there  
Now everywhere we go, they said how much I spend when I'm in there  
And I'm throwing up my money for the ones who never made it  
Say I fucked the ones who hate it rolling up and celebrate  
[Hook: Wiz Khalifa]Now let's get medicated  
Man , let's get medicated  
Let's get medicated  
Man I'm hella faded  
Man , let's get medicated  
Let's get medicated  
Let's get medicated  
Man I'm hella faded  
I'm hella faded
