Medicated

Wiz Khalifa

[Intro]You be anything you want Uhh Just keep going, going, gone, gone, gone Uhh It don't stop here nigga Yeaah Uhh

[Verse 1: Wiz Khalifa]Back when I was young I had dreams of getting richer Then my homie Breeze set me down schooled me to the picture I was with some wild niggas put me on the game Told me if you tryin' to make your move you gotta know your lane homie All you got your name and your words will never break For this life you pay a price you get a chance you gotta take it Cause most niggas never make it they stranded where I'm from Ain't no conversation all they understand is get a gun I was riding in my Bona Ville hoping I could make it Out selling peas and smoking weed avoiding police right up the street Way back in the day before I had all of this paper Before I had all of these diamonds, before I had all of these haters [Bridge: Wiz Khalifa]Now I remember when , I seen it and to me it was stuntin' I remember when, I bought it I ain't needed or nothing Always in a different state so now they label me a goner I ain't come up out of nowhere I'm from straight up off the corner Now everywhere we go, they probably know my name cause I been there Now everywhere we go, they said how much I spend when I'm in there And I'm throwing up my money for the ones who never made it Say I fucked the ones who hate it rolling up and celebrate [Hook: Wiz Khalifa]Now let's get medicated Man, let's get medicated Let's get medicated Man I'm hella faded Man, let's get medicated Let's get medicated Let's get medicated Man I'm hella faded I'm hella faded [Verse 2: Juicy J]Roll that weed up and smoke it Take your bitch home and poke it Juicy begin so faded

Thank God I got a chauffeur On that good cali bud Pulling hoes bad as fuck Just like a youngling my nigga Juicy do all them drugs Niggas smoking that average weed I be on that light green Pop molly in the after hours A member of no sleep team Get a whole pound smoke it by myself Or maybe after Olympics with my homie Michael Phelps [Verse 3: Chevy Woods]You know I'm fresh up out that corner, pussy marijuana

They copy us, they clone us Yeah we so fly we on us Got acting like they been before But they ain't never been at all 8 balls I was in no hole Ain't have time to fuck with y'all Champagne when we celebrate Keen sense so I smell the hate Middle finger we getting paid It cost much but don't press that eight That dotted line it ain't like that day Comic book let em ill it straight Like power bang when they lift that cane My cousin died wish I can get that day Back like it's a vertebre Bring that nigga on front street Talk about and never be about it They don't wanna beef cause that's lunch me So anything you need you know that's on me And that's OG, I swear homie [Hook: Wiz Khalifa]Now let's get medicated Man, let's get medicated Let's get medicated Man I'm hella faded Man, let's get medicated Let's get medicated Let's get medicated Man I'm hella faded I'm hella faded [Verse 4: Wiz Khalifa]Riding down the street the way I'm grinding is unique My city holding on to me so niggers holding on their heat Throwing up their side rolling up that leaf

Ondoers get high all we want is peace Always on the grind that's every day so police looking I'm just rapping killing beats tryin' to stay away from booking Yeah my nigga dirty crocked I just had to make it on And let me hit the studio to show they happy to be home [Bridge: Wiz Khalifa]Now I remember when , I seen it and to me it was stuntin' I remember when, I bought it I ain't needed or nothing Always in a different state so now they label me a goner I ain't come up out of nowhere I'm from straight up off the corner Now everywhere we go, they probably know my name cause I been there Now everywhere we go, they said how much I spend when I'm in there And I'm throwing up my money for the ones who never made it Say I fucked the ones who hate it rolling up and celebrate [Hook: Wiz Khalifa]Now let's get medicated Man, let's get medicated Let's get medicated Man I'm hella faded Man, let's get medicated Let's get medicated Let's get medicated Man I'm hella faded I'm hella faded
