Mogitah

Ol' Paint

I left my house and went to yours among the trees
You told me all there is to life is birds and bees
When you spoke I disagreed and now you're back for more

I went down to the sea to see if I could float
I didn't so you brought to me a purple boat
Wasn't much for sailing why not hang it on the wall
Ship and wooden there it is now very tall

Living in daylight dying at night
Wake up and go to sleep

I went for a walk into the woods to see your smile
I saw an old man standing 'round so we talked awhile
I had seen my better days but he had seen my best
