Reindeer

The Knife

Reindeer, reindeer, reindeer
I caught one of your horns
And even if it rains here
It's much worse in the northReindeer, reindeer, reindeer
I caught one of your horns
And even if it rains here
It's much worse in the northAnd you move like shadows
In the dark
And you glitter and you glimmer
And you barkMoon's light the feathers
The sleigh this year is heavier
I thought we'd reached Warzava
But we are stuck in VasaAnd Santa here is faster
This house must be the last now
And we follow mister Santa
To the endReindeer, reindeer, reindeer
Your formate friend
Humble heavy loaded
And soon it's time againAnd you move like shadows
In the dark
And you glitter and you glimmer
And you barkMoon's light the feathers
The sleigh this year is heavier
I thought we'd reached Warzava
But we are stuck in VasaAnd Santa here is faster
This house must be the last now
And we follow mister Santa
To the endMoon's light the feathers
The sleigh this year is heavier
I thought we'd reached Warzava
But we are stuck in VasaAnd Santa here is faster
This house must be the last now
And we follow mister Santa
To the endAnd we follow mister Santa
To the end
And we follow mister Santa
To the endAnd we follow mister Santa
To the end
And we follow mister Santa

To the endMoon's light the feathers
The sleigh this year is heavier
I thought we'd reached Warzava
But we are stuck in VasaAnd Santa here is faster
This house must be the last now
And we follow mister Santa
To the end
