Labeled (Remix) [feat. Ill-Esha]

Souleye

Verse 1I believe in a world where war no longer exists /
We negotiate instead of hate /
Now that's what I'm talking about /
The natural state of human happiness /
Before the neglect and the trauma hit /
Judgment definition of my character /
A rarity these days for me to meet someone /
Who can look me in the eyes and have me feel like a loved one /
I know there's cultural, social, and institutional /
Family issues and provocative victims /
Who set them selves up to loose /
There's intent behind the action that's made /
It's kind a crazy when you think about /
The things people say /
Out of defense while there acting out /
Younger than their kids throwing tantrums /
Loose cannons carrying hand guns /
Time bombs ticking ready to self-destruct
Your mind can be a land mine /
Just don't give upHookYou don't even know my name yet /
And you already got me labeled /
You don't even know my name yet /
And you don't seem to want to learn /
You don't even know my name yet
And you already got me labeled /
You don't even know my name yet
And you don't seem to want to learn /Verse 2Rough times / Lack of sun shine and Vitamin D /
An in adequate diet car is running on empty /
Imbalance in your brains, chemicals is nasty /
And I know people who think they can fix it themselves /
Next thing you know they're living in heaven /
But it feels like hell / I pay attention to the small details /
Why would I want to get angry at someone beeping their horn? /
I don't know what's going on behind closed doors /
I tell my son that they're in rush / Maybe they missed their lunch /
It's not our business anyway so let them pass /
Let's get on with our day / It's a bright clear sky /
Today's not cloudyayyyyyyyyy / Yeah its smooth like that /
When you look eye to eye / And feel the souls contact /

Contracts that I write I keep them all win win /
That's the benefit of giving, see there's love in the end /Verse 3I live life I don't let life live me /
I wear my clothes cause I wanna /
Not cause there cool / Your life's an art piece a book / Bestseller
Realize it's okay to make mistakes / don't dwell on /
The voice in my head is not me /
I change my perspectives and I take a different view /
You'll be amazed when you open the cage /
Let the animals free then show them where to eat /
I heard the story about judgment and the book /
Bad vs Good / Right vs Wrong / Life vs Death /
Light vs Dark / All of this seems incredibly separative /
No wonder there's people feeling AlienatedBridgeImagine a life / I wonder when it will be /
When your neighbors are your friends /
And we are one community /HookYou don't even know my name yet /
And you already got me labeled /
You don't even know my name yet /
And you don't seem to want to learn /
You don't even know my name yet
And you already got me labeled /
You don't even know my name yet
And you don't seem to want to learn /
