

# Fly or Dive

## Compact Disco

Initially it was hard  
and it's gonna hold you tight for life,  
'coz when the tunes grab you hard  
the rest won't be either very light, When a melody starts to form,  
The deadliest love affair is born,  
You do what you gotta do,  
But in the end you will fly or dive. Bridge  
You feel like it's just like a ride  
in the sky to envy it,  
It can bring you praise or disgust,  
so you got to remember now: Chorus:  
Music is hard love, but it's time to fly now, yeah - (it's time to fly now)  
Music is hard love, but it's time to fly now, yeah - (it's time to fly) This is something you can't stop  
even when really trying hard,  
a burden that spans through time,  
there's no judge here for you to discard When a melody starts to form,  
The deadliest love affair is born,  
You do what you gotta do,  
But in the end you will fly or dive. Bridge  
You feel like it's just like a ride...
