

# Swords

## Ventana

Danger in every corner  
I have become pure water  
I can identify, I close my eyes I wear my sword at my side  
I wear my sword at my side Cleanse me deep in the fire  
I have become pure water I wear my sword at my side  
I wear my sword at my side I wear my sword at my side  
I wear my sword at my side I have become pure water  
I have become pure water  
I have become pure water
