

Babasonicos

[Ian Brown](#)

You weren't there that night
You didn't get it right You weren't there that day
I know you will never know
That the lady got no soul She got no soul, yeah You weren't there that night
You didn't get it right You weren't there that day
I know you will never know
That the lady got no soul She got no soul, yeah She got no soul, yeah
