

Hellnation

Dead Kennedys

Advisory - the following lyrics contain explicit language:

Hellnation's what they teach us
Profiting from greed
Hellnation's what they give us
Coke, heroin and speed
Hellnation's when they tell you
You gotta go clean up your act
You're the one who dragged me here
And now you drag me back
To this Hellnation, Hellnation
Hellnation, Hellnation
Problem is few care
About the people in despair
If you help no one
You're guilty in this Hellnation
Hellnation's when the President
Asks for four more fucking years
Hellnation's when he gets
By conning poor people and peers
Hellnation got no choice
What's the point of trying to vote?
When this country makes war
We all die in the same boat
In this Hellnation, Hellnation
Hellnation, Hellnation
Problem is few care
About the people in despair
If you help no one
You're guilty in this Hellnation
Problem is few care
About the people in despair
If you help no one
You're guilty in this Hellnation
{It's the only world we've got
Let's protect it while we can
That's all there is and there ain't no more}
Hellnations like to choose
For a nuclear freeze
So the unborn kids
Pick up their chance to live and breathe
Hellnation asking aid
For the minimum wage
So kids of tomorrow
Don't wind up slaves to their trade
In this Hellnation, Hellnation

Hellnation, Hellnation
Problem is few care
About the people in despair
If you help no one
You're guilty in this Hellnation
