

# Nothing Much Happens

**Ben Lee**

It's sad and spent  
Feel the motion again  
Stop and pause  
Then move some more Still surprise you when it shatters  
But nothing matters  
Still surprise you when it shatters  
Dont you know that nothing happens? But a lot goes on, a lot goes on  
But nothing happens  
A lot goes on, a lot goes on  
But nothing happens Choose a town  
Find a girl to follow around  
Stay on track  
And just sit back Still surprise you when it shatters  
But nothing matters  
Still surprise you when it shattered  
Dont you know that nothing happens But a lot goes on, a lot goes on  
But nothing happens  
A lot goes on, a lot goes on  
But nothing happens A lot goes on, a lot goes on  
But nothing happens  
A lot goes on, a lot goes on  
But nothing happens But a lot goes on, a lot goes on  
But nothing happens  
A lot goes on, a lot goes on  
But nothing happens A lot goes on, a lot goes on  
But nothing happens  
A lot goes on, a lot goes on  
But nothing happens
