Wasting Time

Katie Herzig

I didn't know when I met you, I'd upset you
I didn't know I was takin' both your eyes
But even the best intentions take us by
Surprise
How do you keep a secret
Don't repeat it
How do you push away without a shove
It's easier wasting time than breaking hearts you love
Maybe a boat on the ocean, will bring good fortune
Maybe a gust of wind will keep us out at sea
I'll be hoping for the wind that sets you free

Fate is just matter choosing sides
It's easier wasting time than breaking hearts you love
It's easier wasting time than breaking hearts you love
It's easier wasting time than breaking hearts you love
It's easier wasting time than breaking hearts you love
It's easier wasting time than breaking hearts you love
It's easier wasting time than breaking hearts you love
I didn't know when I met you, I'd upset you
I didn't know I was takin' both your eyes
How do you live with a secret
Don't repeat it
I didn't know I was takin' both your eyes
Even the best intentions take us by surprise
