

You Tear the World in Two

Pale Saints

Tear the world in two
And choose a half
But [unverified] look inside you
You are what you are I've seen it through
And you will too
I can tell that you
Feel these things too [Unverified]
And teach yourself to walk
Into the hole
Exploding in your heart I've seen it through
And you will too
I can tell that you
Feel these things too I've seen it through
And you will too
I can tell that you
Feel these things too You tear the world in two
I'll destroy you
