

Picture

Carly Rae Jepsen

I could take a picture
Of you and me together
No one would believe me
No one would believe me Say it in a whisper
That baby it dont get much better
Would I like to see you again?
You name the day
And I will pick the city
Well fly away
Til then, call me when you miss me
If youre asking if Id really like to see you again
I say, oh just say when
Tell me that you feel it
This you and me together
No one would believe me
Even I cannot believe it
You kiss me like you mean it
Oh baby, it dont get much better
Would I like to see you again?
Darling just say when You name the day
And I will pick the city
Well fly away
Til then, call me when you miss me
If youre asking if Id really like to see you again
I say oh just say when
Two different worlds
I thought theyd keep us apart
Im ignoring my head
Follow my heart
Oh you pick the day
And I will pick the city
Well fly away
Till then, call me when you miss me
I am willing to wait
Cause I just gotta see you again
Dont ask, no. just say when
Just say when
I could take a picture
Of you and me together

No one would believe me
No one would believe me.
