

Kill the Fear (feat. Hannah Ray)

Conjure One

Forbidden fruit
Can taste so good
When it comes from the highest branches If this is the love
That dare not speak its name
You're quite prepared to take your chances Refrain:
I kill the fear
You cannot be the medicine and the poison
You've got to be one or the other I kill the fear
I'll be there to walk in such a place with you
Kill the fear, feel the fear, do it anyway Promise it Tell me your truth
And I'll tell you mine
Together we will see
If we can find the answers And this refrain
By any other name
Turns your mind into
A great enhancer Lived in a place like this house
Nothing could've torn those walls down
You were so sure about the things that made you so secure Life lived in a place like this house
Trees that you built to saw round
There was no one to walk you through it
How could you dream about the day when you could be without it Refrain I kill the fear
You cannot be the medicine and the poison
You've got to be one or the other As if you didn't know
