Neighborhood

Great White

So lay me down easy here comes another day
I don't want to get up no I don't want to play
I listen to everyone all I hear is the lie
I turn on the television and I ask myself why
Here we go the same old faces telling me that I'm okay
All this seems so circumstantial and then I find
It's just another day in the neighbourhood
It's just another day and you're looking good
You want to run away don't you wish you could?
Ain't it good to be alive?
There's a hole in the ceiling my head's on the floor
I see it all sideways I can't feel it no more
Emotional vampire feeding off me
Smother the goodness so much I can't breathe
We're burning all our expectations to justify our misery
I have my thoughts of happiness and realise
It's just another day in the neighbourhood
It's just another day and you're looking good
You want to run away don't you wish you could?
Ain't it good to be alive?
Another pot of gold another rainbow's end

It's just another road down down down
It's just another road down down down
It's just another road down
It's just another day in the neighbourhood
It's just another day and you're looking good
You want to run away don't you wish you could?
Ain't it good to be alive?
It's just another day in the neighbourhood
It's just another day and you're looking good
You want to run away don't you wish you could?
Ain't it good to be alive?
It's just another day in the neighbourhood
You want to run away don't you wish you could?
Ain't it good to be alive?
It's just another day in the neighbourhood
You want to run away don't you wish you could?
Ain't it good to be alive?

It's just another day in the neighbourhood
It's just another day and you're looking good
You want to run away don't you wish you could?
Ain't it good to be alive?
