

# Milk & Honey (accapella)

## Goapele

If we had a place to go  
If we had somewhere to be  
Can somebody let it go  
Here's your chance so let it be  
I don't wanna spell it out  
It's between the lines just read  
How the story ends you'll find  
Rock me to sleepIt'll be like milk and honey  
Baby I can tell you want me  
Ooh I can feel your heartbeat  
And the feelings coming over me  
Just lay back, relax, let me blow your mind  
Lets take our time  
Like honey it feels so warm insideNo matter the day  
Your losing the night  
No matter the hour  
I'm telling you now  
Just follow my lead  
I'll open like a flower  
Honey by the nectar sweet  
From the ocean so deep  
On the shores I'll hope we'll meet  
And fit together perfectJust like milk and honey  
Baby I can tell you want me  
Ooh I can hear your heartbeat  
And the feelings coming over me  
Just lay back, relax,boy you blow my mind  
Lets take our time  
Like honey it feels so warm insideI don't want the feeling to leave  
I'm killin' 'em softly  
Never had honey so sweet  
Now that you got me  
Just pull me closer in  
Ooh slowly  
You give me all I needJust like milk and honey  
Baby I can tell you want me  
Ooh I can feel your heartbeat  
And the feelings coming over me  
Just lay back, relax, boy you blow my mind

Lets take our time

Like honey it feels so warm insideJust lay back, relax, let me blow your mind

Like honey it feels so warm insideOhh lets take our time
