

# Buy It In Bottles

[Richard Ashcroft](#)

Baby come on, come on down  
And love please don't make a sound  
Let nature strike a chord  
'Cos nature is the Lord that I depend  
When you learn to cut it loose  
All the things that've been drowning you  
Let 'em slide from your hands  
The foolish demands from the people 'round you  
I know you can buy it in bottles and  
I know you may find it with prayer  
I know it all so very well  
Until I get there then  
I'll be looking for the sense  
You can meet me where I am  
And here I stand, and here I stay  
I know you can buy it in bottles and  
I know you may find it with pills  
I know it all so very well  
Stuck in this life where nothing changes  
I'm born of man, I'm born of ages  
I know you can buy it in bottles and  
I know you may find it with prayer  
I know it all so very well  
I know you can buy it in bottles and  
I know you may find it with pills  
I know it all so very well  
Until I get there then  
Until I get there then  
Until I get there then  
Until I get there then
