

# In Spirit Golden

## I Blame Coco

Fall into flames and you won't do it again  
You've learnt a lesson, you've never been taught so  
Crawl into blame that you will never reclaim  
It's a blessing that you'll never get caught, oh But underneath we are golden  
Hold them, we made them  
Our hearts beat, control them  
They're too fast, too fast for me tonight I've seen souls in spirit golden  
I've seen souls in spirit gold  
Now I've cleaned myself from that unsettling light It was too bright for me and the love of my life  
But if you capture me I'll be within your sight  
It was too bright for me, it was too bright tonight Before the insults and post the praise  
You are the subject of a sugarcoat cross hair  
During the shell shock of a crystal maze  
You are important at your opening funfair However underneath we are golden  
Hold them, we made them  
Our hearts beat, control them  
They're too fast, too fast for me tonight I've seen souls in spirit golden  
I've seen souls in spirit gold  
Now I've cleaned myself from that unsettling light It was too bright for me and the love of my life  
But if you capture me I'll be within your sight  
It was too bright for me, it was too bright tonight Here by a circus on this moonlit night  
With the lukewarm light, it's not too frightening  
Here by a settle at the starboard side  
If you only vouch for me on this golden night, on this golden night Oh, my burning eyes see souls in spirit golden  
I've seen souls in spirit gold  
Now I've cleaned myself from that unsettling light It was too bright for me and the love of my life  
But if you capture me I'll be within your sight  
It was too bright for me, it was too bright tonight
