

Idol (Hex Hector & Jonathan Peters Single Mix)

Amanda Ghost

I can see it, I can feel it rushing in my veins
I don't like it, I don't hide it, see it in my face
But I don't want to wait for I have lost my faith
Why can't I find myself an idol?
 Somebody that I can look up to
 Be big enough to hold me close in their arms
 And never let me down
 And all these stupid conversations
 That always seem to lead to nowhere
 They're going 'round and 'round, 'round in my head
And they'll be back again, they're coming back again
It's not fair how, I still care now, we're always alone
 Honesty and modesty will never find my home
But I will never say when I have lost my way
Why can't I find myself an idol?
 Somebody that I can look up to
 Be big enough to hold me close in their arms
 And never let me down
 And all these stupid conversations
 That always seem to lead to nowhere
 They're going 'round and 'round, 'round in my head
And they'll be back again, they're coming back again
You take it, take it, take it, take it, take it
 You take it, you take it and throw it away
 You take it, you take it and throw it away
 Away, away, away
 But I will never say
When I have lost my way
Why can't I find myself an idol?
 Somebody that I can look up to
 Be big enough to hold me close in their arms
 And never let me down
 And all these stupid conversations
 That always seem to lead to nowhere
 They're going 'round and 'round, 'round in my head
And they'll be back again, they're coming back again
You take it, you take it and throw it away
 You take it, you take it, they're coming back again
You take it, you take it and throw it away, away, away
 And throw it away
 You take it, you take it and throw it away
