Historian

Teen Idols

Take a moment and remember how things were
But don't get stuck there because
You're future's still unsure
Keep moving forward, there's adventure still in store
Make your way because there's always something moreI know good time days were fun, but the good times have just begun
HistorianWe need hope for things that lie ahead
Don't take comfort in the things that cause you dread
It's the unknown that makes us run away
Don't waste it hiding
Reach out and seize the dayIt's easy to get lost in a world of yesterdays
Can't move ahead when the past is in your way
Don't look back at the tracks left in the sand
You'll lose your way, with no one to hold your hand
