

Better Girl

Virgin Minds

And it's no fun when I'm freaking out
And it's no fun when I'm always down
And it's no fun what I'm putting inside
If he's making me crazier
And it's no fun when I'm always alone
And it's no fun when I'm always at home
And it's no fun when you're laughing at me
Always laughing at me
You gotta keep me away from what they say about me
You gotta keep me away from what they say about me
Say about me
'Cause I want to be a better girl
And it's no fun when I'm staying up late
And it's no fun when when you're breaking a date
And it's no fun when what I'm putting inside
If he's making me crazier
And it's no fun when I'm always alone
And it's no fun when I'm always at home
And it's no fun when you're sitting without me
Always sitting without me
You gotta keep me away from what they say about me
You gotta keep me away from what they say about me
Say about me
'Cause I want to be a better girl
Yeah, I want to be a better girl, a better girl
A better girl, a better girl
A better girl, a better girl
A better girl, a better girl
