

The Silent Enigma (orchestral)

Anathema

In dreamland grandeur
I held mesmerised peace
Innocence breathed againA mind's escape
Leave walls of tears behind
Ethereal vision haunting still...
The solitude left me blindBeneath an open sky
Sibilant cries of youth dying
Enslave me with griefA moonlit era, oblivion's twilight kiss
Wishes in lament
Happiness in a broken visionUtopia still unborn...Tormented echoes of a fallen Eden
I longed for her beauty
Yet from dust, she returned
The dream, an enigma... silent
