Fill Me Up

Geronimo!

I just had to let you know
'Cuz I don't always let it show
You give me needed room to grow
And I just had to tell you soYou fill me up
You're in my veins
A look could take my breath away
And all these things, you give away
Sometimes I take for grantedIt's just like poetry inside
To hear you breathing by my side
Like I'm in Heaven and I've died
So glad you're with me for this rideYou fill me up
You're in my veins
A look could take my breath away
And all these things, you give away
Sometimes I take for grantedI see your face to start my day
Makes my all bad dreams go away
And all the stupid games we play
Wouldn't have it any other wayYou fill me up
You're in my veins
A look could take my breath away
And all these things, you give away
Sometimes I take for grantedYou fill me up
You're in my veins
A look could take my breath away
And all these things, you give away
Sometimes I take for granted
