

# Modehuman, Pt.1

## Far From Alaska

Empty robot I'll put on you all emotions and a soul  
I'll teach you to be a human being  
You'll have no trouble if you stick to what I mean  
I'll put you right in my place  
Make you learn how my face reacts  
To all the wicked words of people trying hard  
To bring me down(Bring me down)Metal heart, iron mind  
I don't really care  
If you will mess this up I'll quit this lie  
Metal heart, iron mind  
I don't really care  
If you will mess this up I'll quit this life
