

Straight Ahead

Sick of It All

I'm for the people, I stand for them
If everybody learns to give a helping hand
You can count on me, your fellow man
In our fight for unity, we standGoI'm for the people, stand for them
Everybody learns, give a helping hand
Look inside yourself and try to find
Caring person with a positive mind
Look inside yourself and try to find
Caring person with a positive mindThe way I think, the way I live
I walk straight ahead, I have something to give
Always there to hold out my hand
Because I care, I'll take a fuckin' standI'm for the people, stand for them
Everybody learns, give a helping hand
You can count on me
