

The Girl

D'Sound

Verse 1:

Some are losers in this game
Some try and they try just the same
It happened before I knew
Now all I can think about is you
It was summer in the park
And the nights never got dark
I guess I was tipsy too
Now all I can think about is you
Pre-lude:
If you don't remember my name:
I'm the girl with the droptop
Waiting by the buss stop
If you don't remember my name:
Refrain:
The girl with the smile that goes like this
The girl with the lips you need to kiss
The girl with the song that made you blue
Now all I can think about is you
Aiaiai Aiaiai
The girl with the song that made you blue
Now all I can think about is you
Verse 2:

There was promise in the air
And people partied without a care
Summer was bright and new
Now all I can think about is you
When I caught your eye by chance
I lost all my self-defense
And yes, I was tipsy too
Now all I can think about is you
