

Farting With A Walkman On

The Bloodhound Gang

I know you're gonna blame me when you get wind
I heard you're full of shit so I've been duped again
But if you cover your ass with the same old song
You might as well be farting, farting with a walkman on

I know you're gonna blame me when you get wind
I heard you're full of shit so I've been duped again
But if you cover your ass with the same old song
You might as well be farting, farting with a walkman on

I know you're gonna blame me when you get wind
I heard you're full of shit so I've been duped again
But if you cover your ass with the same old song
You might as well be farting, farting with a walkman on

Give me a fuckin' break

Farting with a walkman on
Farting with a walkman on
Farting with a walkman on
Farting with a walkman on
