Girlscout

Jack Off Jill

If you want it, did you never want for more
The Girl Scout fell from grace
If you want it, did you never want for more
I spit inside her face
If you want it, did you never want for more
The lines that cut right through
If you want it, did you never want for more
The numbness that was you
What I want
and what I need
To sacrifice what I believe
My little Girl Scout
Your mouth is getting sore
Will you love me any less
If I hurt you any more?
If you want it, did you never want for more
Cleansing every sore
If you want it, did you never want for more
Sold from door to door
If you want it, did you never want for more
Finish what you start
If you want it, did you never want for more
De-humanize my heart
What I want
and what I need
To sacrifice what I believe
My little Girl Scout
Your mouth is getting sore
Will you love me any less
If I hurt you any more?
I was never your number one fan
How can I grow a girl away
When you never were a man?
And I was never nice, and I've gone too far
You don't need to be nice when you've been
Kissed by a star
Kissed by a star
Kissed by a star
Hurt by a star

Fucked by a star
Kissed by a star
Kissed by a star
Kissed by a star
Fuck what I want
Fuck what I need
I'll sacrifice what I believe
My little Girl Scout
Your mouth is getting sore
Will you love me any less
If I hurt you any more?
