

Captive Heart

Selena

(My captive heart...)
I see him walkin' I sense the danger
I hear his voice And my heart stops
He wears the face of the night
Ooh The perfect stranger
An' I'm fallin' Ready or not
Don't think about it
Who knows where the wind blows (oooh)
No doubt about it
I'll go where he goes
My captive heart
(He holds the key to these emotions)
My willing soul
(Let me drown in this ocean)
And I carry the flame
And I play my part
Like I did from the start
As long as he is callin', callin'
My captive heart
Fire burns
So I've been told
But I like
The way it feels
He has a wild passion
That drives away the cold
An' I know (and I know)
His touch is real
Don't think about it
I'll go where he goes
My captive heart
(He holds the key to these emotions)
My willing soul
(Let me drown in this ocean)

And I carry the flame
And I play my part
Like I did from the start
As long as he is callin', callin'
My captive heart

(repeat chorus)
Don't think about it
Who knows where the wind blows (ooh)
No doubt about it
I'll go where he goes
My love...
(He holds the key to these emotions...)
(Let me drown in this ocean...)
(And I play my part...)
(As long as he's callin', callin'...)
My willing soul...
Set me free...My captive heart...
