## Gemini

Hypnotized - Gemini

[Chorus:]Baby,

I can't keep my eyes off you

So hypnotized by the way you move

And I just wanna know

Baby what's your name

And maybe later on

We can go somewhere

Yeah-a-a

[Verse 1:]I got a thing for them 5'1"-5'2" 's

Walkin' right past me in stiletto shoes,

Hold up,

Tattos yeah I like 'em too

They got piercings I don't mind a few, no,

I need a stunna

The type when you see comin

Everybody stop-- stops

It's what they doin'

And lil' mama looks like that type

Let me slide a little closer when my time is right

And the way that your movin'

Your movin' draws me in closer into it,

I don't care, I'mma stare

Keep do whatcha doin' lil' mama

Soon as ya done I'm up on ya

I'm right here, and ain't goin no...where

[Chorus:]Baby,

I can't keep my eyes off you

So hypnotized by the way you move

And I just wanna know

Baby what's your name

And maybe later on

We can go somewhere

Beacause lil' mama all I really wanna do is

mess with you

Yeah-ahh

Tell me

What it's gonna take to

mess with you

What's it gonna take yeah....  
[Verse 2:]Hey.... Hey  
Tell me what I gotta do  
I ain't like these other suckas runnin' game on you  
I'm sure ya hear it all the time  
But I don't spit lines,  
I don't waste my breath shit..on all that mess  
If I said it then I meant it

Not to try to get between ya  
And I ain't gotta wow you,  
To make you a believer  
Some like to make it rain, yeah we can make it rain  
Like JD once said, shit;money aint a thang"  
I ain't tryin' ta impress ya  
Lil' mama you can tell what I got  
An 'at don't matter, that don't matter  
We can get it poppin'  
Like these champaign bottles  
And don't be playin' hard to get  
It'll only make me try harder  
Come on

[Chorus:]Baby,  
I can't keep my eyes off you  
So hypnotized by the way you move  
And I just wanna know  
Baby whats your name  
And maybe later on  
We can go somewhere  
Because lil' mama  
All I really wanna do is  
Get with you  
Yeah-ahh  
Tell me what it's gonna take to get with you

[Verse 3:]So whatcha name is  
Little lady  
I'm tryin ta see what it do wit cha baby  
You got partners  
I got partners for 'em  
And more to drink  
And some of that good to blow on  
I got her started now she don't wanna stop  
When she grindin' on me you know i'mma hard as a rock  
Now it's 5 in tha mornin'  
Party ain't slowin'

Back to the hotel's  
Where we going  
And you know how I do it, if I see it  
Then I want it, and I seen how you move it 'hey  
Why don't cha move it over here and make yourself comfortable  
'cause we ain't goin' no where  
[Chorus:]Baby,  
I can't take my eyes off you  
So hypnotized by the way you move  
And I just wanna know  
Baby what's your name  
And maybe later on  
We can go somewhere  
Because...
