

# That Day

## Golden Earring

She left me behind  
But in my mind  
I hear the word  
She said to me  
I wonder why  
It had to be that day  
She said she loves me  
And that was easy to see  
But why did she run away  
I pray that she'll come back  
And stay one day  
Now I'm walking slowly  
Matter on my way  
It seems she was lonely  
I have no words to say  
Where has she gone  
Where has she gone  
No heart was ever been hurt  
Like mine that day
