

Listing

Minus the Bear

i was
reliving everything you said
and then it caved in
no one else can make me feel the same
it's how live the tide is chasing us in
don't get wet
don't get wet
yeah
no one can see me listening
no one can see
don't you listen
watching me sing now you got me
you're stuck in my head
and you're not even close, to where i am
sometimes this city brings you in
lets you know we lived well off to who ever is him
but you and him no one can see me listening
no one can see
don't you listen
watching me sing sometimes i forget just for a bit
X5 no one can see me listening
no one can see
don't you listen
watching me sing
