I Can Take It From There

Chris Young

Ain't nothin' goin' on in town tonight
Except the loud party crowd drinkin' too much beer
So, baby, tell me would it be alright
If we just take a little rain check and stay right here?
I'm sure we could find somethin' to do
As a matter of fact, baby, why don't you?Grab a couple glasses and a bottle of wine
Walk down the hall and turn down the lights
Baby, while you're at it, you might as well let down your hair
And I can take it from there
Yeah, I can take it from thereI'm gonna put an old record on
Conway Twitty, yeah girl, I'd love to lay you down
Kill that ringer on your telephone
Ain't gonna stop lovin' you 'til the candle burns out
Oh, there it is, that little smile of yours
Come on, baby, what you waitin' for?Grab a couple glasses and a bottle of wine
Walk down the hall and turn down the lights
Baby, while you're at it, you might as well let down your hair
And I can take it from thereTomorrow's gonna be here way too soon
Let's not waste another minute
Girl, I've got plans for me and youJust grab a couple glasses and that bottle of wine
Walk down the hall and, darlin', turn down those lights
Baby, while you're at it, you might as well let down your hair
And I can take it from there
I can take it from there
I can take it from there, yeah, yeah, yeah
