

Kom igen

FFL

Try to learn every single ayat
So my soul in front of Allah, gon' be smelling good
To that moment I be definitely making my move
In it for the money? Nah man, I'm in it for the truth
Ain't about any gold or the ice
Sneaks and close is just part of the hype
MTV sucks big time
Cribs and bling - get a real life
But wow - take a minut or 2
Why we spending so much money man that we don't have boo
Every tiny detail, we gotta have kid!
Every kind of device to make us look rich
Hollywood, magazines, videos
Escaping anything & anyone away we go
In it sickening enough that we don't really care
In it sickening of that we don't wanna share
Wish for my brother what a wish for my self
Try to love the world less, put my ego to rest
"get rich or die tryin'" who ever said it was poor
don't they ever gon' learn from the farao in gold
Kom Igen Kom Igen
Kom igen du min elskede ven
Kom Igen Kom Igen
Kom igen du min elskede ven
Wish for my brother what a wish for my self
Try to love the world less, put my ego to rest
Hey hvorfor er det lige du tror du kender mig
A shabi rasi hrakni
