

# Unforgiven

## Creed

I kept up with the prophecy you spoke  
I kept up with the message inside  
Lost sight of the irony of twisted faith  
Lost sight of my soul and it's void  
Think I, think I'm unforgiven to this world  
Think I, think I'm unforgiven to this world  
[Incomprehensible] Took a chance at deceiving myself  
To share in the consequence of lies  
Childish with my reasoning an' pride  
Godless to the extent that I died  
Think I, think I'm unforgiven to this world  
Think I, think I'm unforgiven to this world  
Think I'm unforgiven  
No more raging innocence  
No more raging innocence  
No more raging innocence  
No more raging innocence  
Step inside the light and see  
The fear of God burn inside of me  
The gold was put to flame, to kill  
To burn, to mold it's purity  
Think I, think I'm unforgiven to this world  
Think I, think I'm unforgiven to this world  
Think I'm unforgiven
