What About

Us 5/US5

what about you
what about me
I see you chillin' at the party
I watch you passing by
You got a very sexy body
Tonight I'll make you mine believe it
The way you move is kind of freaky
But I really dig your style
I wanna see you shake that body
And get it on tonight my baby
Girl won't you be my lady
You know that I'm going crazy
I'll treat your body right
Until the end of time
What about me, what about you
What about all the things we'll do
What about me girl
Tell me where the party's at
Hey we're where the party's at
What about me, what about you
What about all the things we'll do
What about tell me where the party's really at
Hey we're where the party's at
Oh Baby Girl you're such a hotty
You're down in VIP
It's time to get the party started
And show you that I really mean it
I start to move a little closer
'Cause it's time to make my move
I creep on up behind your shoulder
And get into the groove my baby
Girl won't you be my lady
You know that I'm going crazy
I'll treat your body right
Until the end of time
What about me, what about you
What about all the things we'll do
What about me girl

Tell me where the party's at
Hey we're where the party's at
What about me, what about you
What about all the things we'll do
What about tell me where the party's really at
Hey we're where the party's at
We go oh, oh, oh, oh
Did it up up and low
To da regga tempo
All my fellas throw your hands up
Oh, oh, oh, oh
Shake your body let's go
US5
We go oh, oh, oh, oh
Did it up up and low
To da regga tempo
Sexy mamas throw your hands up
Oh, oh, oh, oh
Shake your body let's go
US5
Girl won't you be my lady
You know that I'm going crazy
I'll treat your body right
Until the end of time
What about me, what about you
What about all the things we'll do
What about me girl
Tell me where the party's at
Hey we're where the party's at
What about me, what about you
What about all the things we'll do
What about tell me where the party's really at
Hey we're where the party's at
What about me, what about you
What about all the things we'll do
What about me girl
Tell me where the party's really at
Hey we're where the party's at
