Fools

Rachel Stevens

It'll be okay with the next one
I always end on a leash up having no fun
Yeah, I'm always stuck, feel like getting up now
Make it understood, crazy and it means getting downI'm so tired and bored of the 'Mr. Nice Guy'
Treats me well but stiff if the word on my mindSo send me in the fools, throw away the heroes
I need some excitement here tonight
Send me in the fools, I'm starting up the party
I make waking up wanna feel the vibeWhat I need is something that's not against the law
It just fit in space and baby I'm bored
I'm bored of feeling that safe, easy touch
Need a man to get my engine started upDon't change, too lame, that don't make my kind of man
Find a wild side somewhere and maybe we canSo send me in the fools, throw away the heroes
I need some excitement here tonight
Send me in the fools, I'm starting up the party
I make waking up wanna feel the vibeGet me off this one-way road I'm going down
All I feel like now is, Heaven's so farSo send me in the fools, throw away the heroes
I need some excitement here tonight
Send me in the fools, I'm starting up the party
I make waking up wanna feel the vibeSo send me in the fools, throw away the heroes
I need some excitement here tonight
Send me in the fools, I'm starting up the party
I make waking up wanna feel the vibeSo send me in the fools, throw away the heroes
I need some excitement here tonight
Send me in the fools, I'm starting up the party
I make waking up wanna feel the vibe
