Spoken Second

Scarlet Fade

Verse:
You sound like youre going to lose your voice
At any spoken second
And every word I hear is every word I dread
And every word you say gets stuck in my head
Its not realChorus:
You are gonna wake up
You are gonna break up
And its gonna feel right
You are gonna freak out
You are gonna break out
And its gonna be rightVerse:
Its like you cannot believe the sound coming out of my mouth
And every word you say is every debt I pay every time i say get out of my way
Away from hereBridge:
If its true then believe it and hope that it is better off when everything falls into place in time. (2x)
