

King

Louis V

I hear em talkin
But they ain't sayin shit
They ain't sayin shit
I hear em talkin
But they ain't sayin shit
They ain't sayin shit()
I'm the king this year, the king this year
The king this year, the king this year
I'm the king this year, the king this year
The king this year, the king this year
I'm the king this year, the king this year
The king this year, the king this year
I'm the king this year, the king this year
The king this year, the king this year
(Bridge)
I hear em talkin (yea)
But they ain't sayin shit (nope)
They ain't sayin shit (nope)
I hear em talkin
But they ain't sayin shit (nope)
They ain't sayin shit (nope)
They ain't sayin shit()
They wanna bring me down, but I'mma lift em up
With success, ain't got no time to be giving up
Got kids to feed and a mama too
Swarm, I need change like Obama do
Fuck drama too, smart remarks
Ya'll haters know ya'll can't stop this dude
I was born to grind, I was born to shine
Damn right nigga, I've been going for miles
Ain't got time to be slowing mines
For lame ass niggas we playin with time
My granny getting old, I've been praying for mines
Niggas had it too long and think it was mine
Like a bed for 10 I've been giving em 9's
You want beef then I'm giving em prime
Don't deal with all stuff this year
All your access big or not
At the top of shit, I've been around

You at the start, I'm at the finish line
Let me straight talk cuz they ain't friends of mine
Going to shit, we minimize
You involved with too many guys
I mean get world like driving got

I brought my city high, I let my pants be low
Gotta believe to achieve it, not what the fuck you in it for
I was in that 4, tryna make that dough
Make my mama proud, that early bird that give and go
I once was pulled sleeping up on the floor
Now my night and days looking like a nigga made it for sure
What you know what's right nigga?
You ain't bout that life nigga
W all we want to live life, we weren't just like them white niggas
I put my team on (team on) team on
And you can't have it back, I feel weak gone
You carving copy, shit look sloppy, you are not me
Try to gut me, tryna knock me
Flew them shots like the paparazzi()
I'm the king this year, the king this year
