

# Move Me No Mountain

**Chaka Khan**

Just as sure as I live, I will love you alone  
You belong in my arms, you belong in my home  
I don't expect you to be someone else that you're not  
All I expect you to give is all that you've got, so Move me no mountain, turn me no tide  
Swim me no ocean, long, deep and wide  
Just say you love me baby, long, strong and true  
But move me no mountain to prove that you do  
But move me no mountain to prove that you do Fill my life with your love, you're my bread, you're my wine  
Fill my life with your love and I'll fill yours with mine  
You'll never hear me cry tears of regret  
It's fine with me if all I see is all I get, oh Just say you love me, baby  
Just love me baby, long, strong and true
