# Pumping On Steel

## Billy Idol

Let there be light, oh yeah, divide heaven tonight
Oh, open my sight, oh yeah, yes pump it on home tonight
I see hearts are breaking, I feel tears falling, oh yeah
Scenes from a million years, I want lovers talking
See their fear subsiding, sliding down cross a million years
But when I get home, I walk right up your street
Investigate all that's sweet, yeah, lead me baby
Switch on your lights, tonight, pumping on steel tonight
Gonna be fine, that's right, yes alright
Pumping on steel tonight, well alright
Man myth breaker, woman man maker
Singing scenes from a million years
Oh, now we're talking, fears breaking
Running down cross a million years
But when I get home, I walk right to your door
Baby, I want some more, lead me girl
Switch on your lights tonight, we'll be pumping on steel tonight
It's gonna be wild, that's right, alright, pumping on steel tonight
Shake it out wild, that's right, c'mon yeah, pumping on steel tonight
Yes and well alright
Let there be light, divide your heaven tonight
I said, open my sight, I've got to slide tonight
I've got to ride, I might die tonight
Switch on your lights, got to be fine, that's right
Oh, gonna be wild, that's right, lead me baby
Lovin' tonight, pumping my steel, that's right
Yes and well alright, yes and well alright
Yes and well alright, lead me baby, pumping on steel
