

# The Big Welcome

[W.a.s.p.](#)

Ladies and gentlemen, boys and girls  
And wild ones of all ages  
Step right up, I welcome you to come on in  
Inside the Electric Circus  
The music is your passport, your magic key

To all the madness that awaits you  
Feel the thunder and the frenzy  
And see all the unusual animals  
And the animals?  
Well they're something else
