

Desert Plains

Iron Savior

Full moon is rising
The sky is black
I need your call I'm coming back
The road is straight cast
Wind's in my eyes
The engine roars between my thighs From desert plains I bring you love
From desert plains I bring you love Wild mountain thunder
Echoes my quest
My body aches but I'll not rest
Quartz light to guide me
Till sunrise leads
My passion screams, my heart it bleeds From desert plains I bring you love
From desert plains I bring you love Then in the distance
I see you stand
On the horizon you raise your hand
In burning rubber
I end my quest
You fall into my arms at last From desert plains I bring you love
From desert plains I bring you love
